

New Puppy - No Problems!

Top 10 things to teach your new best friend!

1. That their new family are lots of fun.
2. That the world is not a scary place.
3. That learning is safe and fun.
4. To cope when left alone.
5. That it's fun to be touched.
6. How to control their impulses.
7. Where to pee and poo.
8. How to get attention.
9. Your house rules.
10. Their name is a good thing.

Now that your puppy knows these important things, you can start to teach them the basics - sit, down, stay, come when called etc!

Always remember - what gets rewarded, gets repeated! Give your puppy lots of reinforcement (treats, attention, play) when they are being good and try to ignore any behaviour that you do not like!
